

How I'm Making...

Easy Sales On CashBlurbs.com!

NOTICE: You have FULL resell or giveaway rights to this manual!

Dear online commission seeker,

I have a question for you...

Can you think of *any* way to start getting nearly **INSTANT traffic** to your online offers for zero cost, and with only 1-2 minutes of effort right off the bat?

My guess - your answer is “No”.

Well, now there's a **guaranteed** way to do EXACTLY that!...

CashBlurbs.com is an ingenious new **free traffic system** that enables you to start getting INSTANT traffic to your online offers - whether it be affiliate offers, mlm programs, blogs, your own products, and more!

Now, although you can start posting ads on CashBlurbs.com for absolutely no cost whatsoever, there is also a *low* cost “premium” version, called the **Unlimited Membership**, which will easily TRIPLE the amount of traffic that you receive.

...For that reason, and to **COPY following the formula I'm about to show you**, you'll definitely want to grab the [Unlimited Membership](#). The *results* speak for themselves:

[Case Study 1 Results](#)

[Case Study 2 Results](#)

[Case Study 3 Results](#)

...So how am I doing it?

Obviously there are multiple strategies that can be used on CashBlurbs.com, depending on what your focus is. If it's list building, then obviously you'll be best off linking to a splash page where you're offering a valuable free incentive to subscribers.

But the objective of my 24 hour case studies above was to make affiliate commissions, *period*. And so, what I'm about to reveal right here and now is EXACTLY how I got the traffic and made the commissions you've just seen.

Note that this is just **ONE FORMULA** of *dozens* that you can “apply” on CashBlurbs.com...

Are you ready? This won't take long!...

Step 1.

Find brand new products to promote through JVNotifyPro.com (or via similar sources)...

Simply create a free account at JVNotifyPro, and from there you can login to see dozens of the upcoming “guru” launches!

[Here's an example](#) of a product that I found to promote on CashBlurbs.com.

Step 2.

Subscribe to the JV (affiliate) page for the newly launching product that you've found, and get your affiliate link to promote that product...

It will look something like this:

<http://goldliger.launchads.track.clicksure.com>

Note: For this step (in cases where you haven't done so already), you'll need to create a free affiliate account through the website of the payment processor / affiliate network that the product seller is using to accept payments for their

product...

In the case of my example above (Paid Ads For Free), the processor is Clicksure.com. It will often either be Clickbank.com, or Clicksure.com. In other cases it might be JVZoo.com or WarriorPlus.com, both of which require you to request APPROVAL to promote the product you're interested in – so be aware of that potential extra step. And still in other cases, the seller will be running the affiliate program through their own “in house” affiliate tracking software, in which case you'll need to sign up directly to their affiliate program (rather than through an affiliate network such as Clickbank.com).

Obviously you only need to create ONE free affiliate account for each payment processor / affiliate network, meaning you won't need to “re-sign up” for every product in their network that you wish to promote...

With Clicksure.com and Clickbank.com, you'll get a "nickname" or "ID" after joining, which you'll insert in place of the "xxxx" in the affiliate link for a specific product (usually found on the seller's JV/affiliate tools page)...

For example, I have the same nickname/ID for both my Clicksure.com and Clickbank.com affiliate accounts – "goldliger" – and you can see exactly how I've inserted it in the affiliate link above (for a Clicksure product).

Make sure to TEST your affiliate link!

If you're a little lost here, simply contact the product owners, let them know you'd like to promote their product, and they should be happy to explain anything you're not clear on. Trust me, once you've done this 2 or 3 times, it's a walk in the park. (You will GET IT after just **doing it**, in other words.)

Step 3.

Go to tinyurl.com and shorten your affiliate link.

For example, I shorted my affiliate link from the example above, to the following:

<http://tinyurl.com/8nstzrc>

...The reason for shortening your link is primarily so that you'll have more space (more characters available) when creating your ads for CashBlurbs.com.

Step 4.

This tip can be a BIG time saver (depending on your writing skills), because it means **you don't even have to write your own ads to post on CashBlurbs.com!**

The trick is to use the subject lines from the email swipes (aka solo ads, email promos) that sellers typically provide on their JV/affiliate pages. You'll usually find affiliate resources, including email swipes, AFTER subscribing to the seller's affiliate program - typically via their "JV page"...

Once "inside" simply look for the email swipes, and again, grab the SUBJECT LINES from those emails to use as your ads for CashBlurbs.com.

I recommend that you copy and paste 5 to 10 subject lines into a separate notepad or word document, keeping each "product campaign" separate.

Once you've copied the subject lines, simply add your tinyurl/shortened affiliate link to the end of each one, **and you're done!**

Continuing on with my example from above, here are my completed ads for the Paid Ads For Free product (ready to post on CashBlurbs.com)...

Step 5.

Send TRAFFIC to your offer by posting your (easily prepared) ads on CashBlurbs.com!

Note that whether you're a free or Unlimited member of CashBlurbs, you're required to SHARE the CashBlurb ad of another member (on your Twitter or Facebook page) right before posting your own CashBlurb...

...But what this means is that **YOUR ads will get shared as well!** Eventually, as you use the CashBlurbs.com service *consistently*, your ad will have been posted to dozens, or even hundreds of other Twitter and Facebook pages!

So not ONLY are you getting traffic directly from CashBlurbs.com. CashBlurbs members are also sending you traffic!

Obviously some products that you promote will do MUCH better than others, and you will soon get a feel for what type of products sell best.

Another *very* important point regarding my formula...

I mentioned JVNotifyPro merely as **one source** of finding hot new products, but if you're *smart*, you will definitely want to do your own research (starting with Google) to come up with other ways of finding hot products to promote.

They don't all have to be new launches – not by any means! There are countless thousands of “evergreen” products out there that could turn out to be very solid cash-makers for you.

The key is to TEST different approaches, rather than doing the same thing as everybody else and creating unnecessary competition for yourself.

It was only by testing that I came across the formula I've just shared with you.

And by the way, **here are the actual results from the campaign I used as my example above** (I had no idea what my results would be while creating the campaign for example purposes)!...

4 hours in, a sale was made!

5 hours in, an even larger sale was made!

I'm telling you, it just doesn't get any easier than this!

...Although I've written this out in some detail for you, REALLY all I did in a nutshell was **“grab a hot affiliate product” and “send traffic to it using nothing but CashBlurbs.com!”**

I've been doing online business full time for 10 years, and as I sit here, I cannot think of an EASIER way to start getting traffic and commissions than with CashBlurbs.com.

It's an AWESOME way for newbies to get started, and yet so POWERFUL that seasoned experts would be a lil' crazy for not making CashBlurbs.com a part of their traffic arsenal!

Additional ideas:

- You can promote your splash page to build your list.
- You can promote CPA offers.
- You can promote "evergreen" products instead of new launches.
- You can create your own BONUS OFFER page, and then promote *that* page instead of promoting the affiliate website DIRECTLY (which gives visitors a purchase incentive).
- You could give away a free download (ebook or software) with your affiliate links embedded inside.
- Get creative, and TEST to see which methods work best for YOU!

CashBlurbs provides the TRAFFIC, absolutely guaranteed, and it's up to you to simply find and post offers that convert!

I hope you've enjoyed discovering how I'm making “**my easiest sales and commissions ever**” online!

Now it's your turn...
